See Berry/Asparagus descriptions on next page

Blueberry Plants

Climax - very early, medium to large fruited berry with good fruit quality. Sweet flavor.

Columbus - early to mid-season fruiting with strong yields and good flavor.

Onslow - vigorous grower with very large berries. Mid to late season production.

Ira - mid-to-late season with medium to large berries. Vigorous and upright grower.

Powder Blue - late season, highly productive berry. Grows upright.

Raspberry Plants

BP-1 - very high quality variety with excellent flavor. Late everbearing raspberry.

Himbo Top - extremely large, firm, bright red fruit; good flavor; extremely vigorous and requires little fertilizer. Early to mid season yield.

Blackberry Plants

Ouachita - thornless blackberry that stands erect and has excellent quality fruit, with firm, sweet berries.

Caddo - new variety for 2020. Another thornless blackberry with high-quality, productive yield. Excellent plant health.

Strawberry Plants

Flavorfest - June-bearing berry with vigorous growth and resistance to disease. Bright colored and exceptional flavor.

Galletta - early variety that produces big, attractive, good quality fruit. Developed by NC State University.
